

How to install L200 application patch

This document helps you to install the L200 application patch; follow these simple steps to install it.

N.B. You must do a recovery action on your L200 so save your data on the second partition.

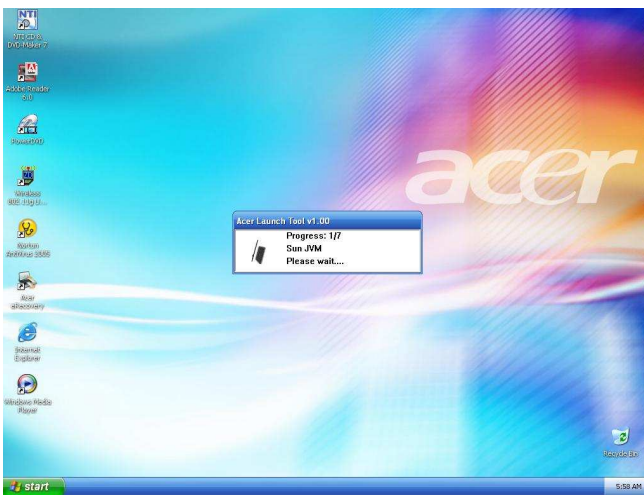

With Acer E-recovery do the recovery from the factory image (see picture1).

PICTURE 1

Do the Windows configuration setup with your name and other requests.

After the first reboot stop the acer launch tool (see picture 2) select it with mouse and do Alt + F4 (close the application)

PICTURE 2

Insert the cd rom in the drive and launch the L200.bat

L200 will reboot automatically

Follow the steps of Pinnacle PC tv for Windows media center edition :

- choose your preferred language

- choose the custom setup

- deselect the options of PCTV100i, PCTV300i, Antenna power supply, PCTV310i with left click on

- install only Pinnacle Mpeg video

- finish the setup

Congratulation you have completed the installation, enjoy your living center !!
