Description:	Skype 2.0 for Linux is a free video calls utility. You can make calls from your computer – free to other people on Skype, great low rates to phones and mobiles across the world. And the sound quality is great too – keep it running all day, and it's like you're in the same room as the person on the other end.
Installation Guide:	Install Procedure : 1. Download the file skype.sh.zip to Aspire one directly. 2. Double click skype.sh.zip , and uncompress the zip file via "Xarchiver", there should be a new file named " skype.sh " in the same folder with skype.sh.zip . 3. Go to skype.sh folder and double click skype.sh . 4. Follow the on-screen instructions to complete the installation.
Disclaimer:	1. Skype is commercial software 2. Acer doesn't guarantee that this tool runs perfectly on Aspire one. For any technical problem, please feedback to Skype official website.
