Disclaimer:	<ol style="list-style-type: none">1. IceBreaker is entirely original code licensed under the GNU GPL. This means that not only can you download and play the game for free, you can also help make it better -- and you benefit from the efforts of other people making it better. If I ever stop distributing IceBreaker, that doesn't mean the game will die, because someone else could take it up. The only catch is that you can't take IceBreaker and make it into a closed product, which is only fair considering the time and effort I've put into it.2. Acer doesn't guarantee that this tool runs perfectly on Aspire one. For any technical problem, please feedback to
