Tool tips	Pass	
Usability	Pass	

# PVL PA Test Report for eSomething Application

## eSomething application Buglist

NO.	Subject	Process	Severity	Status	Attached	Comments
1	"Widget Setup" page is blocked by "Password Setup" page and can NOT click any other item of eSomething.	1. Right click tool bar and access the "Password Setup" page. 2. Right click tool bar again and access the "Widget Setup" page as the "Password Setup" page remains. 3. Program now focuses on the "Widget Setup" page but it is blocked by "Password Setup" page, and can NOT click any other item of eSomething.	3			
2	The tutorial file was lost for the DT version.	1. Install ETF and select DT version. 2. Right click tool bar and select "Tutorial". 3. The tutorial file was missing.	2			
3	A button was abnormal in install shield with FR version.	1. Start to install ETF. 2. In the licence page, hover mouse cursor around the print button and the button shows abnormally as the following picture.	4
